PROFESSIONAL SUMMARY

Full Stack Developer with over 5 years of experience building web and mobile applications, with a strong focus on Front-End development using React, Next.js, Angular, and TypeScript, as well as Back-End experience with ASP.NET Core and SQL Server.

Experienced in developing business applications, implementing modern user interfaces, REST APIs, and integrations with third-party services. Familiar with AWS, GitFlow, and Agile methodologies, with a strong focus on software quality, continuous improvement, and problem-solving.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI, Redux Toolkit.
 - **Backend:** C#, ASP.NET Core, .NET, Entity Framework Core, REST APIs, Node.js.
 - **Cloud & Infrastructure:** AWS (S3, EC2, CloudWatch, Secrets Manager), Vercel.
 - **Databases:** SQL Server, MySQL.
 - **Tools:** Git, GitFlow, Jira, Postman, Figma, Axios.
 - **Other:** Technical SEO, internationalization (i18n), session management using cookies, localStorage, and sessionStorage.
-

PROFESSIONAL EXPERIENCE

Full Stack Developer — Pinard Software e Innovación S.R.L.

Mar 2020 – May 2026

Main Project: ticketPass – Event Ticketing Platform

- Developed and maintained business web applications using React.js, Next.js, and Angular, implementing responsive interfaces and improving the overall user experience.
- Built user interfaces based on Figma designs, tested APIs using Postman, and contributed to UX/UI improvements.
- Integrated third-party services and Mercado Pago Checkout Bricks for secure payment processing.
- Developed and maintained REST APIs using ASP.NET Core and Entity Framework Core to support critical ticket sales and transfer processes.

- Implemented authentication, session management, and validation mechanisms for critical ticket purchase and transfer flows.
 - Optimized database queries with Entity Framework Core using AsNoTracking, projections, and efficient entity management.
 - Collaborated in Agile development environments using GitFlow and Jira for version control and task management.
 - Developed and supported mobile features using .NET MAUI as part of the migration from Xamarin.
 - Used AI-assisted development tools such as ChatGPT, GitHub Copilot, and Cursor to improve development speed, debugging, documentation, and test generation, while reviewing and validating generated code before integration.
-

EDUCATION

National University of Jujuy (UNJu) — Faculty of Engineering
University Programmer Analyst | 2012 – 2018

COURSES & CERTIFICATIONS

- React.js – Udemy
 - Azure SQL — Platzi
 - Angular, MySQL & Node.js — Platzi
 - .NET MAUI – LinkedIn Learning
-
