PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building production web and mobile applications, specializing in **React, Next.js, and TypeScript**. Frontend technical point of contact for ticketPass, an event ticketing platform, contributing to application modernization, critical checkout flows, and administration tools. Experience building REST APIs with **ASP.NET Core, Entity Framework Core, and SQL Server**.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Pinard Software e Innovación S.R.L. | Mar 2020 – Aug 2026

ticketPass — Web and mobile platform for event ticket sales and management.

- **Frontend and modernization:** developed the customer-facing site (React / Next.js) and Manager dashboard (React), including reusable components and state management. Served as frontend technical point of contact and contributed to the migration to Next.js to support SSR, technical SEO, and internationalization (i18n).
- **Product features:** event floor plans and seating maps for customers and Manager users; producer landing pages with dynamic routes; push notifications and a customizable email editor with HTML, styling, and preview.
- **Payments and high traffic:** integrated Mercado Pago Checkout Bricks and redirect-based checkout depending on event requirements; implemented checks to prevent duplicate operations and contributed to a virtual waiting room integration.
- **Backend and performance:** developed and maintained REST APIs with ASP.NET Core and EF Core; optimized read queries using **Select** projections and **AsNoTracking**, and introduced **CancellationToken** in controllers.
- **Support and delivery:** investigated incidents using AWS CloudWatch logs, performed refactoring, and made targeted improvements to Bitbucket pipelines by removing unnecessary installation steps.
- **Mobile:** developed and maintained application screens and features using **.NET MAUI**.

Project-based Collaboration | GISSO / SSR Mining

Developed **Angular** frontend features for sample and laboratory workflows, including tables, forms, reusable components, and REST API integrations.

PROJECTS AND COLLABORATIONS

TicketGenerator | Next.js, TypeScript — Personal app for generating tickets from templates and CSV files, with QR codes and batch PDF export.

Flexxus BI | React, TypeScript, Material UI — Developed frontend features for a dashboard showing commercial and tax indicators.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Redux Toolkit, Material UI, Angular, HTML, CSS, Axios.

Backend and data: C#, ASP.NET Core, Entity Framework Core, REST APIs, SQL Server, LINQ.

Tools and cloud: AWS (CloudWatch, EC2, S3, Secrets Manager), Git, GitFlow, Bitbucket Pipelines, Vercel, Jira, Postman, Figma. AI-assisted development (ChatGPT, Copilot, Cursor) with manual code review.

EDUCATION AND LANGUAGES

University Programmer Analyst | National University of Jujuy (UNJu) | 2012–2018.

Additional training: React (Udemy), SQL / Angular / MySQL / Node (Platzi), .NET MAUI (LinkedIn Learning).

English: Intermediate (B1).
